TSA is grateful to GATE Pharmaceuticals for its continuing support of this program which allows us to provide professionals and the public with the most current list of relevant journal articles. We are unable to provide copies of the articles cited. If you see a citation for an article that interests you in these newsletter listings, you may find copies at your local medical library, or, search online at PubMed, a service of the National Library of Medicine, which provides access to over 11 million MEDLINE citations back to the mid-1960s and additional life science journals. PubMed includes links to many sites providing full text articles and other related resources.
