## **Deep brain stimulation in Tourette's Syndrome**

Ackermans L; Temel Y; Visser-Vandewalle V

*Neurotherapeutics* 2008; 5339-5344

## **Validation of the reference tissue model for estimation of dopaminergic D2-like receptor binding with [18F] (N-methyl) benperidol in humans**

Antenor-Dorsey JA; Markham J; Moerlein SM; Videen TO; Perlmutter JS

*Nuclear Medical Biology* 2008; 35:335-341

## **Rage attacks and aggressive symptoms in Japanese adolescents with tourette syndrome**

Kano Y; Ohta M; Nagai Y; Spector I; Budman C

*CNS Spectrum* 2008; 13:325-332

## **Screening of the epsilon sarcoglycan gene in Tourette syndrome and obsessive compulsive disorder**

Katerberg H; Cath DC; Tijssen MA; van Balkom AJ; van de Leemput YL; den Boer JA; Heutink P; Baas F

*Psychiatric Genetics* 2008; 18:98

## **Dopamine receptor interacting proteins (DRIPs) of dopamine D1-like receptors in the central nervous system**

Wang M; Lee FJ; Liu F

*Molecules and Cells* 2008; 25:149-157

## **Familial deletion within NLGN4 associated with autism and Tourette syndrome**

Lawson-Yuen A; Saldivar JS; Sommer S; Picker J

*European Journal of Human Genetics* 2008; 16:614-618

## **Durability, negative impact, and neuropsychological predictors of tic suppression in children with chronic tic disorder**

Woods DW; Himle MB; Miltenberger RG; Carr JE;

Osmon DC; Karsten AM; Jostad C; Bosch A

*Journal of Abnormal Child Psychology* 2008; 36:237-245

## **Cognitive-behaviour therapy and skilled motor performance in adults with chronic tic disorder**

O'Connor KP; Lavoie ME; Stip E; Borgeat F; Laverdure A

*Neuropsychological Rehabilitation* 2008; 18:45-64

*TSA is grateful to GATE Pharmaceuticals for its continuing support of this program which allows us to provide professionals and the public with the most current list of relevant journal articles. We are unable to provide copies of the articles cited. If you see a citation for an article that interests you in these newsletter listings, you may find copies at your local medical library, or, search online at PubMed, a service of the National Library of Medicine, which provides access to over 11 million MEDLINE citations back to the mid-1960s and additional life science journals. PubMed includes links to many sites providing full text articles and other related resources.*
